# **Directing Deacons**

## Lecture Outline Part 1 of 3

### Introduction

| I.  | Greek Terms for "Deacon"          |   |  |  |  |
|-----|-----------------------------------|---|--|--|--|
|     | A.                                | You would normally begin a study of deacons by looking up "deacon" in a c   |  |  |  |
|     | B.                                | If you did, you would find only five instances of the word "deacons," and these in only two New Testament texts: Philippians 1:1 and 1 Timothy 3:8–13.                            |  |  |  |
|     | C.                                | <ul> <li>There are three forms of one Greek root word, diakonos.</li> <li>1. Diakonos (Διάκονος)</li> <li>2. Diakoneo (Διακονέω, verb)</li> <li>3. Diakonia (Διακονία)</li> </ul> |  |  |  |
|     | D.                                | These three terms occur times, and yet the English word "deacons" is found only 5 times, in two passages.   |  |  |  |
| II. | Deacons in New Testament Passages |   |  |  |  |
|     | A.                                | Two major passages which set forth the qualifications for elders: 1 Timothy 3 and Titus 1.  |  |  |  |
|     | В.                                | Acts 14:23  |  |  |  |
|     | C.                                | The D   |  |  |  |

Lecture Outline Part 2 of 3

#### Introduction

| III. | Th           | e Problem  |  |  |  |
|------|--------------|--|--|--|--|
|      | A.           | The B(Acts 2:42-47).   |  |  |  |
|      | В.           | Things quickly get busy for the apostles.  |  |  |  |
|      | C.           | One can easily see that the apostles would not have been physically present when the widows were being fed in Acts 6.  |  |  |  |
|      |              | <ol> <li>One can imagine that the actual feeding program was run by the native<br/>H, who were residents of Jerusalem.</li> </ol>  |  |  |  |
|      |              | 2. The H widows may not have been such long-time residents, or were merely sojourners. It seemed as though they got the short-end of the distribution of food.             |  |  |  |
|      |              | 3. As a result, the H Jews and the native H began to be at odds – not so much the widows themselves, but the two ethnic groups as a whole.                                 |  |  |  |
|      |              | 4. There were accusations of favoritism and a growing animosity. Soon, it was no long an issue of inequality, but a problem of d   |  |  |  |
|      | D.           | It is not a surprise that the apostles were not there to oversee the distribution.   |  |  |  |
| IV.  | The Solution |  |  |  |  |
|      | A.           | The apostles determined they could solve this problem by delegation, not direct involvement.   |  |  |  |
|      | B.           | Establishing the Seven D   |  |  |  |
| V.   | Ob           | eservations  |  |  |  |
|      | A.           | The apostles rightly perceive the significance and urgency of the problem.   |  |  |  |
|      | B.           | The apostles see this as part of their responsibility.   |  |  |  |
|      | C.           | Our problem is that we are looking for a text that describes the relationship of the elders to the deacons, and yet neither elders nor deacons are named herein this text. |  |  |  |
|      | D.           | How then does this apply to elders and to deacons?   |  |  |  |

## **Directing Deacons**

Lecture Outline Part 3 of 3

| VI.  | A_ | Acts 6 to Elders and Deacons  |
|------|----|---|
|      | A. | When you can't apply something in general, you might be able to apply something in principle.   |
|      | B. | That is exactly what we shall do with Acts 6:1-6. We will derive the principles involved, and then apply them to the relationship of elders and deacons.              |
|      | C. | Leadership principles from Acts 6   |
|      |    | 1. The apostles rightly perceived the magnitude of the problem and its implications: disunity.  |
|      |    | 2. They realized how important it was to deal with this problem promptly and decisively – unity was at stake.   |
|      |    | 3. But they were not sidetracked by the urgent because the apostles knew their priorities as apostles: p and p ("ministry") of the Word.                              |
|      |    | 4. They understood that leadership doesn't always mean doing it yourself, but getting it done. Good leadership enlists the i of others who are qualified for the job. |
|      |    | 5. And so the apostles led by delegation, rather than by direct involvement (even though this was probably expected of them).   |
| VII. | De | elegation   |
|      | A. | Before we can delegate, we need to know what our p are.   |
|      | B. | The priority of the gospel  |
|      | C. | Delegate on the basis of priority, not preference.  |
|      | D. | When you delegate, clearly define the job. Set forth the q  |
|      | E. | Don't m the deacons.  |
|      | F. | Delegation is difficult for those who feel the need to be in control. Delegation is the o of guarding your turf.  |
|      | G. | Delegation is one of the early m of passing the torch.  |
